ACCIDENT ON THE SOUTH CAROLINA RAILROAD. The night train on the South Carolina Railroad

ran off the track yesterday near Reeves' Stati Four or five cars were slightly injured.

Success is Menit, proven by King of Pain.

COLOREL C. W. DUDLEY .- We publish on ou arst page this morning another commu from the above named gentleman. Colonel Dun LEY is sincere in his views, and presents then with considerable force and earnestness; and how-ever most of our readers may differ from him, as a well-known and responsible citizen he is entitled to a hearing, and we have, therefore, not hesitated to accord it to him.

ALL SUFFERENS should try King of Pain.

Ten Cusrom House. The work on this building is still progressing. The fraction of a house that stood on the enclosure has been entirely removed and the workmen are now engaged in placing high board fence around the lot. From the energy displayed in the prosecution of this work we may expect to hear of its completion at an early day, the high fence preventing even a bird's-eye view of the proceedings.

A GREAT PARILY WANT! King of Pain.

A MONUMENT FOR THE UNION SOLDINGS. - We gave, some months ago, an account of the monu-ment to be erected over the United States soldiers buried in Magnolia, The project has not bee abandoned; for we see by our exchanges that fif-teen hundred dollars were raised at BERGRES'S Church on Sunday to defray the expenses of a soldier's monument in Charleston. Three hunred and ten bodies of Union soldiers are placed in

INCREASE OF TRAVEL.—The recent cold spell has the sunny South, and the travel on the different railroads has largely increased. On last Wednes-day the Northeastern Railroad brought to this city over eighty passengers, sixty-five of whom took breakfast at Mr. Gaman's hotel in Florence. This is the largest number that have arrived at any one sime since the war, and if the movement is continued the hotels will soon present a more lively appearance than they have exhibited for some onths, and the circulation of greenbacks be

Wn invite attention to the advertisement of Mr. Jas. B. Berrs, in another column. Mr. Berrs has now on hand a fine and well selected stock of lry goods, which are especially designed for the Charleston public. Mr. Burrs is one of the oldest merchants of this city, and has a thorough knowl-idge of the dry goods business in all its details. His store is large and airy, and the stock admira-bly arranged for the convenience of both cierks and customers. The near approach of Winter should warn all to lay in their supplies at once, and to select them before the rush. Mr. Burrs has every style of goods that could be desired, and we advise an early visit.

ARRIVAL OF THE UNITED STATES REVENUE STEAM-BR WILDERBESS.—The United States steamer Wilderness, Lieutenant A. G. Carry commanding arrival at Savannah was noticed in our teleraphic columns, reached this city yesterday, and is now as anchor in the stream. Lieutenant Cansu reports very heavy weather in the Gulf, and severe storms on the Atlantic coast of Florids. The Wilderness proved herself thoroughly seaworthy, and her detention at Savannah was occasioned only by a leak in her boiler, which was soon repaired. The United States Government have ten-dered the Wilderness to Senor Rommo to conney himself and suite to Mexico, and she will leave for

The Richmond Examiner and Enquirer of Wednesday says: "We are highly pleased to learn that a number of our citizens who have been employing aggress in vertous capacities have resolutely determined to retain mone of them who vote the Hummourz ticket in this election. Some of these negroes voted that ticket yesterday, and last night were presently informed that their harvices were not wanted say longer. This is perfectly proper, and if it had been universally done from the beginning as the negre political troubles, this city would not hive been diagraced by the mobs of howling negroes whe have made the nights hideous. If they were not fed by the respectable white people of this sity they would soon find out the difference between their real friends and the Radical wrateless who are using these poor negroes for their own purposes."

STREET PROTOGRAPHING. The dusky sons and daughters of Ethiopia, who claim Charlesten as their home, were somewhat surprised yesterday on seeing the Burne District occupied by a photo-grapher, who was bustly engaged in making plotures. His machine was soon surrounded by a curious crowd, who were anxious to witness the operation, and who testified their amazement at the powers of old Sol by sundry exclamations. The Burnt District presents but few attractions for any but a strangor, and the scenery is too disagreeable to induce many persons to perpetuate it.
What was the idea of the photographer or what
particular scenes he has taken will not probably
be known until seen in some of the numerous picpear in connection with some blood and thunder tale of the war. Our idea is that he was iso much pleased with the appearance of Dan. Castrillo's great sign-board that he was preparing picture tickets of admission to the circus, which would answer the purpose of hand bills and give the public some idea of the wonders of the coming

ALMOST A SCARE. -The practice of allowing cows to roam the streets has been frequently al-inded to, and, though contrary to a city ordinance, it is of daily occurrence. Yesterday morning s cow, who had just been released from her stable. Meeting street, by rushing fiercely along, preferring the sidewalk to the unpaved street. Fortunately but few persons were in the neighborhood at the time, and the cow took the nearest route for the grass and weeds awaited her. There are many persons who have a wholesome fear of cattle, not-withstanding their mild appearance; but when they forget the laws of propriety and occupy the whole street, they should receive the same penalty meted to unruly bipeds—be locked up for safe keeping. The burnt district is unoccupied by any person, and, if the cows could be kept within its limits, there would be no cause of complaint; but when they are permitted to roam undisturbed in any portion of the city, we think that the public, who are not interested in cattle grazing, should be informed that there is a law which alty on the owners of the stray kine

who was on duty near the corner of Beaufain and Masyck streets, saw flames issuing from the grocery store. The alarm was given, and observing a suspicious person coming from the house he was ordered to halt. This he refused to do, but attempted to escape by flight, and, on being pursued, presented a pistol to the policeman. When near West street, finding that he was still pursued, he fired the pistol, the shot taking effect in the arm of Cahill. Sergeants Westcoat and Riler, attracted by the sound of the shot, rode up in time to arrest the fugitive, who also drew his pla-tol on them, but was speedily overpowered. The fire was set in the rear of the building, and a quantity of cotton saturated with turpentine was secured by the police. It was evidently a preconcerted plan to burn the building and thus secure carted plan to burn the building and thus secure either some booty or the insurance, but the watchfulness of the police frustrated the schemes of the rascals. The house was owned by Mr. T. CLAFFT, and insured for \$5000, which expires in a few days. Thomas Dolan, the man arrested for the attempt, is a stranger, and his real motive is not known, as he denies being near the house. He has been turned over to a magistrate for prosecution, and, as the nanishment for arrest is hanging, we trust as the punishment for arson is hanging, we trust some example will be made. Fires have been of frequent occurrence, and the evidence in this case is too clear and positive to allow the perpetrator

The best investment for an invalid, who, suffers from debility or loss of appetite, is a bottle of PARKER'S Hopaic Bitters, as it will be sure to give relief. For sale by all Druggists.

What is TARRANT'S EFFERVESORNT SELTER APERIENT, and what are its effects? These are ques tions which the great American public has a right to sak, and it also has a right to expect a candid and satisfactory reply. The preparation is a mild and gentle saline cathartic, alterative and fonic, and is most care fully prepared in the form of a snow white powder, con aining all the wonderful medical properties of the far-tamed Seltzer Springs of Germany.

Of its effects we would, say that those who have tested

the preparation are the best judges, and they declare over their own signatures that the preparation will promptly relieve indigestion. Regulato the flow of the bill. Cure every species of headache. Tranquillies the nervous system. Betresh and invigorate the work. Mitigate the pange of Rhoumatism. Neutralize acid in the Stomesh. Stomach, Cleanse and tone the bowels. Assist the falling appetite. Cure the heartburn.

If you are a sufferer give this Remedy one trial, and it will convince you of the above facts.

OPINIONS OF THE PEOPLE: ALLENDALE, BARNWELL DISTRICT, S. C., March 1, 1867.

OFFICE OF KING'S MOUNTAIN RAILROAD COMPANY, YORKVILLE, S. C., April 13, 1867.

GENTLEMEN: I have just received your letter of February 14th—upon my return to this place, after an absence of two months—and this reply may lie too late for your "Descriptive Circular of Ingessell's Cotton Press," The Press I used in packing my cotton last year worked admirably, packing, with ease from 500 to 525 lbs. With good active hands to work it, I am satisfied that from eighteen to twenty bales might readily be packed in a day.

This Press combines the advantages of lightness, and consequent portability and simplicity (being easily managed by any one of ordinary intelligence). Great compressing force, with little motive power, and "last, but. not least," it is worked entirely by hand, thus saving for the farm horses the hard labor imposed upon them by the use of the ordinary "Screw."

Respectfully, &c., yours,

Messet. Little & Marchall:

Messet. Little & Messet. Little Bessure, however, in duced me to try any other. I take pleasure, however, in adding my testimony in favor of its entire adaptation to the wants of a cotton plantation. It has surpassed my most sanguine expectations. I have packed with but two hands, yet! I prefer four—two at each lever. My bales all weighed over 600 lbs. The first lot I sent to market averaged 652 lbs. My impression is that 500 lbs. is about the capacity of the Press, and a greater number of pounds subject the follow-block to too much risk, unless the sides of the cotton box was increased. It would add greatly to the value of the Press if the cotton box was ten inches longer. In haste, I am, very respectfully, Your obedient servant, &c., B. W. LAWTON.

P. S. I took my Press down and carried it some four miles to pack the crop of a neighbor, who failed to have a "Screw" built; he was so much pleased that he has determined to abandon the "Screw" and purchase "Ingersoll's Press."
